System Specific Information

- Karting NSW own and administer the all new MyKarting Portal.
- The new system is more secure in terms of hardware and software. We've also moved to a more secure Payment Gateway.
- No Proof of Identity documents are stored after they've been approved by State Admin.
- There is now a system generated Audit log accessible by State Admin.
- Backups are performed every 6 hours.
- The data is hosted in an Australian data centre.

Additional functionality will be rolled out as part of a Continual Service Improvement program, with ongoing refinements to be made in the coming months.

The Project has also identified improvements to the Rule Book, as well as improved Business Processes. The project has also tied together a number of initiatives and have built specific reports so committees can make informed decisions based on facts and data.

The all new MyKarting™ Portal is on track to go live Wednesday 20th October 2021. Karting NSW has requested the legacy portal (also known as Omni) remain active in a read-only state until the 1st of November 2021 for comparative purposes only.
